Product Datasheet

Sheep anti BrdU (bromodeoxyuridine), Unconjugated NMB-A205P

Artikelname	Sheep anti BrdU (bromodeoxyuridine), Unconjugated
Artikelnummer	NMB-A205P
Hersteller Artikelnummer	A205P
Alternativnummer	NMB-A205P
Hersteller	NordicMubio
Wirt	Sheep
Kategorie	Antikörper
Applikation	FC, IHC, IP, WB
Konjugation	Unconjugated
Produktbeschreibung	Bromodeoxyuridine (BrdU) is a thymidine analog which is selectively incorporated into the DNA of proliferating cells to provide a marker for the DNA being replicated. The number of proliferating cells can then be detected in cell lysates, tissue secti...
Konzentration	See vial for concentration
Isotyp	IgG
Puffer	Provided as solution in phosphate buffered saline with 0.08% sodium azide
Quelle	Sheep were immunized with bromodeoxyuridine conjugated to Helix Pomatia Haemocyanin.
Reinheit	Ammonium Sulfate Precipitation

Formulierung	Unconjugated
Formel	Provided as solution in phosphate buffered saline with 0.08% sodium azide
Anwendungsbeschreibung	Applications: Immunoprecipitation: 25-100 µg/ml, Immunohistochemistry: 25-100 µg/ml. The antibody has been tested using immunoprecipitation against 5-methyl cytosine (5-MeC) and bromodeoxyuridine (BrdU) or a control (no antigen). At a concentration of 25 ug/ml, this product demonstrates 8-fold higher reactivity with 5-MeC versus BrdU. For best results, use product at 25-100µg/ml. Note: Denature DNA sample first so that bases are accessible to anti BrdU antibody. Applicable in flow cytometry for the quantification of Brdu labeled cells, indication the proliferative activity of the tested cell population.
