## Product Datasheet

### Anti-BiP | Lumenal-binding protein, Biotin-conjugated (), Rabbit, Polyclonal AGR-AS09-481B

|                          |                                                                                                                                                                                                                                                              |

| Hersteller Artikelnummer | AS09-481B                                                                                                                                                                                                                                                    |
| Alternativnummer         | AGR-AS09-481B                                                                                                                                                                                                                                                |
| Hersteller               | Agrisera                                                                                                                                                                                                                                                     |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                       |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                   |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                    |
| Spezies Reaktivität      | A. thaliana, Plant                                                                                                                                                                                                                                           |
| Immunogen                | KLH-conjugated synthetic peptide derived from Arabidopsis thaliana BiP proteins: BiP1 At5g28540 Q9LKR3, BiP2 At5g42020 F4K007 , BiP3 At1g09080 Q8H1B3                                                                                                        |
| Konjugation              | biotin                                                                                                                                                                                                                                                       |
| Produktbeschreibung      | BiP2 (Binding immunoglobulin protein) is localized in endoplasmic reticulum lumen (ER) and plays a role in protein assembly inside ER. BiP protein is abundant under all growth conditions but its synthesis can increase under conditions that lead to t... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                   |
| Molekulargewicht         | 73.5   80 kDa                                                                                                                                                                                                                                                |

|                        |                                                                                                                                     |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| NCBI                   | <a href="#">834207</a>                                                                                                              |
| UniProt                | <a href="#">Q39043</a>                                                                                                              |
| Reinheit               | Immunogen affinity purified serum in PBS pH 7.4, conjugated to biotin.                                                              |
| Formulierung           | Liquid                                                                                                                              |
| Antibody Type          | Polyclonal Antibody                                                                                                                 |
| Application Verdünnung | 1 : 8000 (ELISA), 1 : 2000 (WB)                                                                                                     |
| Anwendungsbeschreibung | Protein or membrane sample should be treated at 70C for 10 min before loading on the gel, This antibody has so far not worked in IP |
