| Artikelname                      | Donkey anti-Mouse IgG (H&L) - F(ab)2 fragment, Biotin conjugate, min x w/bovine, chicken, goat, guinea pig, hamster, horse, human, rabbit, rat or sheep IgG |
| Artikelnummer                    | IMU-DKXMU-003-LBIO                                                                                                                                          |
| Hersteller Artikelnummer         | DkxMu-003-LBIO                                                                                                                                              |
| Alternativnummer                 | IMU-DKXMU-003-LBIO                                                                                                                                          |
| Hersteller                       | ImmunoReagents                                                                                                                                              |
| Wirt                             | Donkey                                                                                                                                                      |
| Kategorie                        | Antikörper                                                                                                                                                  |
| Spezies Reaktivität              | Mouse                                                                                                                                                       |
| Immunogen                        | Purified Mouse IgG, whole molecule                                                                                                                          |
| Konjugation                      | Biotin                                                                                                                                                      |
| Format                           | F(ab')2                                                                                                                                                     |
| Spezifität                       | IgG (H+L)                                                                                                                                                   |
| Minimale Kreuzreaktivität (MinX) | Bovine,Gallus,Goat,Guinea pig,Hamster (all),Equine,Human,Rabbit,Sheep                                                                                       |
| Konzentration                    | 1.5 mg/ml (E 1% at 280 nm = 13.0)                                                                                                                           |

|               |                                                                                          |
|---------------|------------------------------------------------------------------------------------------|
| Puffer        | 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free |
| Reinheit      | > 90% based on SDS-PAGE Small amounts of intact IgG may be present.                      |
| Formulierung  | Clear, colorless liquid                                                                  |
| Antibody Type | Secondary Antibody                                                                       |
