| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | IHC                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                          |
| Immunogen                | Recombinant fragment (around aa400-600) of human HSPA1B protein (exact sequence is proprietary)                                                                                                                                                                |
| Produktbeschreibung      | This intronless gene encodes a 70kDa heat shock protein which is a member of the heat shock protein 70 family. In conjunction with other heat shock proteins, this protein stabilizes existing proteins against aggregation and mediates the folding of new... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [HSPA1B/7624]                                                                                                                                                                                                                                                  |
| Molekulargewicht         | 70kDa                                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                                |
