| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IF, WB                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human IRF3 protein                                                                                                                                                                                                                    |
| Produktbeschreibung      | Interferon regulatory factor-1 (IRF-1) and IRF-2 have been identified as novel DNA-binding factors that function as regulators of both type I interferon (interferon-(TM)and A°a) and interferon-inducible genes. The two factors are structurally related... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [PCRP-IRF3-6H10]                                                                                                                                                                                                                                              |
| Molekulargewicht         | ~50kDa                                                                                                                                                                                                                                                        |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |
| NCBI                     | <a href="#">3661</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| UniProt                | <a href="#">Q14653</a>                                                                                                                                                 |
| Formulierung           | 200ug/ml of Ab purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml. |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                    |
| Anwendungsbeschreibung | Immunofluorescence (1-2ug/ml), ,Western Blot (1-2ug/ml),,Optimal dilution for a specific application should be determined.                                             |
