| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa1-200) of human MYC protein (exact sequence is proprietary)                                                                                                                                                                    |
| Produktbeschreibung      | It recognizes a transcription factor of 64-67kDa, identified as c-myc. Its epitope spans between aa 410-419 (EQKLISEEDL) which is a specific portion of an alpha helical region of human c-myc protein. This MAb shows no cross-reaction with v-myc. c-myc... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MYC/7683R]                                                                                                                                                                                                                                                   |
| Molekulargewicht         | 62-64kDa                                                                                                                                                                                                                                                      |

|                        |                                                                                                                                                                                                                                                               |
