| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | ELISA, IF                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Bacteria                                                                                                                                                                                                                                                       |
| Immunogen                | A crude sonicate of Enterobacter aerogenes                                                                                                                                                                                                                     |
| Produktbeschreibung      | Enterobacter aerogenes is a Gram-negative rod-shaped microorganism from the Enterobacteriaceae family. E. aerogenes forms part of the endogenous human gastrointestinal (GI) microflora. It also resides in soil, water and in dairy products. Generally in... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [57/82]                                                                                                                                                                                                                                                        |
| Molekulargewicht         | Not Known                                                                                                                                                                                                                                                      |
| NCBI                     | Not Applicable                                                                                                                                                                                                                                                 |

|                        |                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | 200ug/ml of Ab Purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml. |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                    |
| Anwendungsbeschreibung | ELISA (For coating use Ab at 1-5ug/ml, order Ab without BSA),Immunofluorescence (1-2ug/ml), Optimal dilution for a specific application should be determined.          |
