## Product Datasheet

### GST Antibody Fluorescein Conjugated, FITC, Goat, Polyclonal ROC-200-102-C45

|                          |                                                                    |
|--------------------------|--------------------------------------------------------------------|
| Artikelname              | GST Antibody Fluorescein Conjugated, FITC, Goat, Polyclonal        |
| Artikelnummer            | ROC-200-102-C45                                                    |
| Hersteller Artikelnummer | 200-102-C45                                                        |
| Alternativnummer         | ROC-200-102-C45                                                    |
| Hersteller               | Rockland Immunochemicals                                           |
| Wirt                     | Goat                                                               |
| Kategorie                | Antikörper                                                         |
| Applikation              | DOT                                                                |
| Immunogen                | Glutathione-S-Transferase (Schistosoma japonicum)                  |
| Konjugation              | FITC                                                               |
| Klonalität               | Polyclonal                                                         |
| Konzentration            | 1.0 mg/mL by UV absorbance at 280 nm                               |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2         |
| Formulierung             | Lyophilized                                                        |
| Antibody Type            | Primary Antibody                                                   |
| Application Verdünnung   | FLISA: >1:20,000, IF Microscopy: 1:500 - 1:2,500, WB:<br>>1:10,000 |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Anti-Glutathione-S-Transferase has been tested by dot blot and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multic |
