### Rabbit IgG anti-Goat IgM ( $\mu$ )-HRPO, MinX none ROC-205-4307

|                                  |                                                            |
|----------------------------------|------------------------------------------------------------|
| Artikelname                      | Rabbit IgG anti-Goat IgM ( $\mu$ )-HRPO, MinX none         |
| Artikelnummer                    | ROC-205-4307                                               |
| Hersteller Artikelnummer         | 205-4307                                                   |
| Alternativnummer                 | ROC-205-4307                                               |
| Hersteller                       | Rockland Immunochemicals                                   |
| Wirt                             | Rabbit                                                     |
| Kategorie                        | Antikörper                                                 |
| Applikation                      | ELISA,IHC,WB                                               |
| Spezies Reaktivität              | Goat                                                       |
| Immunogen                        | Goat IgM mu heavy chain                                    |
| Konjugation                      | HRPO                                                       |
| Format                           | IgG                                                        |
| Spezifität                       | IgM ( $\mu$ )                                              |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                        |
| Klonalität                       | Polyclonal                                                 |
| Konzentration                    | 10.0 mg/mL by UV absorbance at 280 nm                      |
| Puffer                           | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2 |

|                        |                                                                                                                                                                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                 |
| Target-Kategorie       | Goat                                                                                                                                                                                                                                                        |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                          |
| Application Verdünnung | ELISA: 1:10,000 - 1:50,000, IHC: 1:500 - 1:2,500, WB: 1:1,000 - 1:10,000                                                                                                                                                                                    |
| Anwendungsbeschreibung | Anti-Goat IgM Peroxidase conjugate has been tested by ELISA. This product has been assayed against 1.0 ug of Goat IgM in a standard capture ELISA using ABTS (2,2-azino-bis-[3-ethylbenthiazoline-6-sulfonic acid]) code ABTS-100 as a substrate for 30 min |
