| Kategorie                | Antikörper                                                                                                                                                                           |
| Applikation              | DOT, ELISA, WB                                                                                                                                                                       |
| Spezies Reaktivität      | Other                                                                                                                                                                                |
| Immunogen                | The immunogen is a Green Fluorescent Protein (GFP) fusion protein corresponding to the full length amino acid sequence (246aa) derived from the jellyfish <i>Aequorea victoria</i> . |
| Konjugation              | Unconjugated                                                                                                                                                                         |
| Klonalität               | Polyclonal                                                                                                                                                                           |
| Konzentration            | 1.18 mg/ml by UV absorbance at 280 nm                                                                                                                                                |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                                                           |
| Formulierung             | Liquid (sterile filtered)                                                                                                                                                            |
| Antibody Type            | Primary Antibody                                                                                                                                                                     |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | ELISA: 1:10,000 - 1:80,000, IHC: 1:200 - 1:1,000, IF Microscopy: User Optimized, WB: 1:1,000 - 1:5,000                                                                                                                                                         |
| Anwendungsbeschreibung | Polyclonal anti-GFP is designed to detect GFP and its variants. Anti-GFP Antibody has been tested by ELISA, dot blot, and western and is suitable in immunofluorescence. This antibody can be used to detect GFP by ELISA (sandwich or capture) for the direct |
