## Product Datasheet

### Goat F(ab)2 anti-Human IgG (H+L)-unconj., MinX Bo,Ho,Ms,Rt, Polyclonal , Unconjugated ROC-709-1116

|                                  |                                                                                             |
|----------------------------------|---------------------------------------------------------------------------------------------|
| Artikelname                      | Goat F(ab)2 anti-Human IgG (H+L)-unconj., MinX Bo,Ho,Ms,Rt, Polyclonal , Unconjugated       |
| Artikelnummer                    | ROC-709-1116                                                                                |
| Hersteller Artikelnummer         | 709-1116                                                                                    |
| Alternativnummer                 | ROC-709-1116                                                                                |
| Hersteller                       | Rockland Immunochemicals                                                                    |
| Wirt                             | Goat                                                                                        |
| Kategorie                        | Antikörper                                                                                  |
| Applikation                      | ELISA,IHC,WB                                                                                |
| Spezies Reaktivität              | Human                                                                                       |
| Immunogen                        | Anti-Human IgG was produced by repeated immunization with human IgG whole molecule in goat. |
| Konjugation                      | Unconjugated                                                                                |
| Format                           | F(ab')2                                                                                     |
| Spezifität                       | IgG (H+L)                                                                                   |
| Minimale Kreuzreaktivität (MinX) | Bovine,Equine,Mouse,Rat                                                                     |
| Klonalität                       | Polyclonal                                                                                  |
| Konzentration                    | 1.0 mg/mL by UV absorbance at 280 nm                                                        |

|                        |                                                                                                                                                                                                                                              |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                                                                                                                   |
| Formulierung           | Liquid (sterile filtered)                                                                                                                                                                                                                    |
| Target-Kategorie       | Human                                                                                                                                                                                                                                        |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                           |
| Application Verdünnung | ELISA: 1:42,000, IHC: 1:500 - 1:2,000, WB: 1:1,000 - 1:5,000                                                                                                                                                                                 |
| Anwendungsbeschreibung | F(ab)2 Anti-Human IgG (H&L) Antibody has been tested by ELISA and dot blot and is suitable for ELISA, immunoblotting, and immunohistochemistry as well as other peroxidase-antibody based enzymatic assays requiring lot-to-lot consistency. |
