## Product Datasheet

### **F(Ab)2 Fragment Of Hamster IgG (H&L) Antibody Rhodamine Conjugated Pre-Adsorbed, TRITC, Goat, Polyclonal ROC-720-100-440**

|                          |                                                                                                          |
|--------------------------|----------------------------------------------------------------------------------------------------------|
| Artikelname              | F(Ab)2 Fragment Of Hamster IgG (H&L) Antibody Rhodamine Conjugated Pre-Adsorbed, TRITC, Goat, Polyclonal |
| Artikelnummer            | ROC-720-100-440                                                                                          |
| Hersteller Artikelnummer | 720-100-440                                                                                              |
| Alternativnummer         | ROC-720-100-440                                                                                          |
| Hersteller               | Rockland Immunochemicals                                                                                 |
| Wirt                     | Goat                                                                                                     |
| Kategorie                | Antikörper                                                                                               |
| Applikation              | DOT                                                                                                      |
| Spezies Reaktivität      | Golden Hamster, Hamster                                                                                  |
| Immunogen                | Golden Syrian and Armenian Hamster IgG whole molecules                                                   |
| Konjugation              | TRITC                                                                                                    |
| Klonalität               | Polyclonal                                                                                               |
| Konzentration            | 1.0 mg/mL by UV absorbance at 280 nm                                                                     |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                               |
| Formulierung             | Lyophilized                                                                                              |
| Target-Kategorie         | Armenian and Golden Syrian Hamster                                                                       |
| Antibody Type            | Secondary Antibody                                                                                       |

|                        |                                                                                                                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | FLISA: 1:10,000-1:50,000, Flow Cytometry: 1:500-1:2,500, IHC: 1:1000-1:5000, IF Microscopy: 1:500-1:2,500                                                                                                                                                     |
| Anwendungsbeschreibung | F(ab)2 Anti-Golden Syrian & Armenian Hamster IgG Rhodamine Antibody has been tested by dot blot and is suitable for immunomicroscopy and flow cytometry or FACS analysis as well as other antibody based fluorescent assays requiring lot-to-lot consistency. |
