| Wirt                     | Goat                                                                                                                                |
| Kategorie                | Antikörper                                                                                                                          |
| Spezies Reaktivität      | Golden Hamster, Hamster                                                                                                             |
| Immunogen                | Golden Syrian and Armenian Hamster IgG whole molecules                                                                              |
| Konjugation              | ALP                                                                                                                                 |
| Klonalität               | Polyclonal                                                                                                                          |
| Konzentration            | 1 mg/mL by UV absorbance at 280 nm                                                                                                  |
| Puffer                   | 0.05 M Tris Chloride, 0.15M Sodium Chloride, 0.001M Magnesium Chloride, 0.0001M Zinc Chloride, 50% (v/v) Glycerol, pH 8.0           |
| Formulierung             | Liquid (sterile filtered)                                                                                                           |
| Target-Kategorie         | Armenian and Golden Syrian Hamster                                                                                                  |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA: 1:2000 - 1:10,000, IHC: 1:200-1:1000, WB: 1:500-1:3000                                                                                                                                                                                                  |
| Anwendungsbeschreibung | Suitable for immunomicroscopy and flow cytometry or FACS analysis as well as other antibody based fluorescent assays requiring lot-to-lot consistency. This product has been assayed against 1.0 µg of Golden Syrian and Armenian Hamster IgG in a standard ca |
