| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Total RNA was prepared from cell line WM3540. WM3540 is a human metastatic melanoma cell line that displays a pigmented, mesenchymal morphology. This cell line was established from a lymph node metastases of a patient. This cell line features the spe... |
| Konzentration            | 200 ng / µl (by UV absorbance at 260 nm)                                                                                                                                                                                                                      |
| Puffer                   | RNase free water                                                                                                                                                                                                                                              |
| Quelle                   | Human                                                                                                                                                                                                                                                         |
| Formulierung             | Liquid                                                                                                                                                                                                                                                        |
| Anwendungsbeschreibung   | Purified RNA is suitable for a number of molecular biology applications including but not limited to next generation sequencing and expression library construction, PCR, real-time PCR, microarray analysis, and transfection experiments.                   |
