| Produktbeschreibung      | RANBP5 antibody LS-C331805 is an unconjugated rabbit polyclonal antibody to RANBP5 (IPO5) from human. It is reactive with human and mouse. Validated for IF, IHC and WB....                                                                                              |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                               |

|                        |                                                                                             |
|------------------------|---------------------------------------------------------------------------------------------|
| Konzentration          | 1.17 mg/ml                                                                                  |
| NCBI                   | <a href="#">3843</a>                                                                        |
| Puffer                 | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                                               |
| Reinheit               | Affinity purified                                                                           |
| Formulierung           | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                                               |
| Application Verdünnung | IF (1:50 - 1:200), IHC (1:50 - 1:200), WB (1:500 - 1:2000)                                  |
| Anwendungsbeschreibung | The predicted MW is 116kDa/123kDa/125kDa, while the observed MW by Western blot was 125kDa. |
