| Artikelname              | Monoclonal Mouse anti-Human CNO Antibody (clone 6C3, IF, WB) LS-C105154                                               |
| Artikelnummer            | LS-C105154-50                                                                                                         |
| Hersteller Artikelnummer | LS-C105154-50                                                                                                         |
| Alternativnummer         | LS-C105154-50                                                                                                         |
| Hersteller               | LifeSpan Biosciences                                                                                                  |
| Wirt                     | Mouse                                                                                                                 |
| Kategorie                | Antikörper                                                                                                            |
| Applikation              | ELISA, IF, WB                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                 |
| Immunogen                | CNO (NP_060836, 108 aa ~ 218 aa) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.         |
| Konjugation              | Unconjugated                                                                                                          |
| Produktbeschreibung      | CNO antibody LS-C105154 is an unconjugated mouse monoclonal antibody to human CNO. Validated for ELISA, IF and WB.... |
| Klonalität               | Monoclonal                                                                                                            |
| Klon-Bezeichnung         | [6C3]                                                                                                                 |
| NCBI                     | <a href="#">55330</a>                                                                                                 |

|                        |                                                                                                                                                                                                                                                                         |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | PBS, pH 7.4                                                                                                                                                                                                                                                             |
| Reinheit               | Purified from ascites by Protein A                                                                                                                                                                                                                                      |
| Formulierung           | PBS, pH 7.4                                                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA, IF (10 µg/ml), WB                                                                                                                                                                                                                                                |
| Anwendungsbeschreibung | Western Blot (Cell lysate) - positive control HeLa.<br>Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections, 3 ug/ml) - positive control human salivary gland.<br>Immunofluorescence (10 ug/ml) - positive control HeLa cells.<br>Sandwich ELISA (Recomb |
