## Product Datasheet

### **Anti-RbcL | Rubisco large subunit, form I, DyLight 594 conjugated (), Rabbit, Polyclonal AGR-AS03-037-DL594**

|                          |                                                                                                                                                                                                                                                                                                       |

| Kategorie                | Antikörper                                                                                                                                                                                                                                                                                            |
| Applikation              | IF                                                                                                                                                                                                                                                                                                    |
| Spezies Reaktivität      | A. thaliana, Algae, Bacteria, Plant                                                                                                                                                                                                                                                                   |
| Immunogen                | KLH-conjugated synthetic peptide conserved across all known plant, algal and cyanobacterial RbcL protein sequences (form I L8S8 and form II L2), including, Arabidopsis thaliana O03042, Hordeum vulgare P05698, Oryza sativa P0C510, Chlamydomonas reinhardtii P00877, Synechococcus PCC 7920 A5CKC5 |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                                                            |
| Molekulargewicht         | 52.7 kDa (Arabidopsis thaliana), 52.5 kDa (cyanobacteria), 52.3 (Chlamydomonas reinhardtii)                                                                                                                                                                                                           |
| NCBI                     | <a href="#">844754</a>                                                                                                                                                                                                                                                                                |
| UniProt                  | <a href="#">O03042</a>                                                                                                                                                                                                                                                                                |

|              |                                                                              |
|--------------|------------------------------------------------------------------------------|
| Reinheit     | Immunogen affinity purified serum, in PBS pH 7.4, conjugated to DyLight 594. |
| Formulierung | Liquid in PBS pH 7.4.                                                        |
