| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human Insulin protein                                                                                                                                                                                                                 |
| Produktbeschreibung      | Recognizes a polypeptide which is identified as insulin, a 51-amino acid polypeptide composed of A and B chains connected through the C-peptide. Proinsulin, which has very little biological activity, is cleaved by proteases within its cell of origin ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rIRDN/4782]                                                                                                                                                                                                                                                  |
| Molekulargewicht         | 6kDa                                                                                                                                                                                                                                                          |
| Isotyp                   | IgG2a                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                        |
