| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IF, IHC                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Bovine, Human, Mouse                                                                                                                                                                                                                                          |
| Immunogen                | Crude human uterus extract                                                                                                                                                                                                                                    |
| Produktbeschreibung      | Smooth muscle myosin heavy chain (SM-MHC) is a cytoplasmic structural protein, which is a major component of the contractile apparatus in smooth muscle cells. Expression of smooth muscle myosin is developmentally regulated, appearing early in smooth ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [SM-M10]                                                                                                                                                                                                                                                      |
| Molekulargewicht         | 205kDa (MHC-1) and 200kDa (MHC-2)                                                                                                                                                                                                                             |

|              |                                                                                                                                                                        |
