| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                                                                |
| Spezies Reaktivität      | Human, Xenopus                                                                                                                                                                                                                                                |
| Immunogen                | Recombinant full-length human Calcineurin B protein                                                                                                                                                                                                           |
| Produktbeschreibung      | Calcineurin is an enzyme that dephosphorylates serine and threonine residues in proteins. It is a heterodimer of a 59kDa catalytic A subunit and a 19kDa regulatory B subunit that is activated by the binding of calcium ions and calmodulin. Calcineurin... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [BE2.1]                                                                                                                                                                                                                                                       |
| Molekulargewicht         | 19kDa                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                              |
