| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant human wild-type p53 protein                                                                                                                                                                                                                       |
| Produktbeschreibung      | Recognizes a 53kDa protein, which is identified as p53 suppressor gene product. It reacts with the mutant as well as the wild form of p53 under denaturing and non-denaturing conditions. Its epitope maps within the N-terminus (aa 20-25) of p53 oncopro... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [SPM589]                                                                                                                                                                                                                                                      |
| Molekulargewicht         | 53kDa.                                                                                                                                                                                                                                                        |
