| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa600-800) of human ABCB11 protein (exact sequence is proprietary)                                                                                                                                                               |
| Produktbeschreibung      | ATP-binding cassette (ABC) transporters are an evolutionarily conserved family of proteins that catalyze the transport of molecules across extra- and intracellular membranes through the energy of ATP hydrolysis. ABC genes comprise seven subfamilies, ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [BSEP/7534]                                                                                                                                                                                                                                                   |
| Molekulargewicht         | 160-190kDa                                                                                                                                                                                                                                                    |
| Isotyp                   | IgG2b                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                        |
