## Product Datasheet

### **Recombinant CD40 / TNFRSF5 / CD40L-Receptor Antibody, IgG1, Clone: [C40/9225R], Rabbit, Monoclonal NBT-958-RBM11-P1**

|                          |                                                                                                                                                                                                                                                               |

| Alternativnummer         | NBT-958-RBM11-P1-100                                                                                                                                                                                                                                          |
| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human CD40 protein                                                                                                                                                                                                                    |
| Produktbeschreibung      | CD40 is a receptor on antigen-presenting cells of the immune system and is essential for mediating a broad variety of immune and inflammatory responses including T cell-dependent immunoglobulin class switching, memory B cell development, and germinal... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [C40/9225R]                                                                                                                                                                                                                                                   |
| Molekulargewicht         | 43kDa                                                                                                                                                                                                                                                         |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |

|              |                                                                                                                                                                        |
