| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragments of human Cytokeratin 5 (KRT5) and Cytokeratin 6 proteins (exact sequences are proprietary)                                                                                                                                              |
| Produktbeschreibung      | Cytokeratin 5 is a basic protein that is closely related to cytokeratin 6. They share similar tissue distribution and are found in various proportions in many non-keratinizing stratified squamous epithelia eg. tongue mucosa, as well as in basal epith... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [KRT5.6/9104]                                                                                                                                                                                                                                                 |
| Molekulargewicht         | 58kDa (KRT5), 56kDa (KRT6)                                                                                                                                                                                                                                    |

|              |                                                                                                                                                                        |
