Product Datasheet

KRIBIOLISA(TM) High Five (Hi5) HCP ELISA KBS-KBBP21

Artikelname	KRIBIOLISA(TM) High Five (Hi5) HCP ELISA
Artikelnummer	KBS-KBBP21
Hersteller Artikelnummer	KBBP21
Alternativnummer	KBS-KBBP21-ELISA,KBS-KBBP21-1
Hersteller	Krishgen Biosystems
Kategorie	Kits/Assays
Konjugation	Colorimetric
Produktbeschreibung	KRIBIOLISA™ High Five (H5) HCP ELISA Enzyme Immunoassay for the Quantitative Determination of Hi5 Host Cell Proteins in cell culture supernatant and biological solutions. This ELISA kit is intended in determining the presence of High Five cells Ho...
Detektionsbereich	3 - 100 ng/ml
Sensitivitaet	Limit of Quantification: 0.188 ng/ml; Limit of quantification (LOQ): 3 ng/ml
Lagerung	Samples to be used within 5 days can be stored at 2-8 Degree Celcius, besides that, samples must be stored at - 20 Degree Celcius (assay less lan or equal to 1 month) or -80 Degree Celcius(assay less lan or equal to 2 months) to avoid loss of bioactivity and contamination. Avoid multiple freeze-thaw cycles. The hemolytic samples are not suitable for this assay.
Proben	Cell Culture Supernatant and Biological Solutions
