## Product Datasheet

### **Anti-Phosphorylated Vimentin (Ser71) mAb, IgG2a, Clone: [TM71], Unconjugated, Rat, Monoclonal MBL-D093-3**

|                          |                                                                                                  |
|--------------------------|--------------------------------------------------------------------------------------------------|
| Artikelname              | Anti-Phosphorylated Vimentin (Ser71) mAb, IgG2a, Clone: [TM71],<br>Unconjugated, Rat, Monoclonal |
| Artikelnummer            | MBL-D093-3                                                                                       |
| Hersteller Artikelnummer | D093-3                                                                                           |
| Alternativnummer         | MBL-D093-3                                                                                       |
| Hersteller               | MBL                                                                                              |
| Wirt                     | Rat                                                                                              |
| Kategorie                | Antikörper                                                                                       |
| Applikation              | WB                                                                                               |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                |
| Immunogen                | KLH-phophorylated PV71(CAVLRpSSVPGV)                                                             |
| Konjugation              | Unconjugated                                                                                     |
| Produktbeschreibung      | Anti-Phosphorylated Vimentin (Ser71) mAb, IgG2a, Clone: [TM71],<br>Rat, Monoclonal...            |
| Klonalität               | Monoclonal                                                                                       |
| Konzentration            | 1 mg/mL                                                                                          |
| Klon-Bezeichnung         | [TM71]                                                                                           |
| Isotyp                   | IgG2a                                                                                            |

|                        |                                                                                                                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI                   | <a href="#">7431</a>                                                                                                                                                                                                                                          |
| Puffer                 | 1 mg/mL in PBS/50% glycerol, pH 7.2                                                                                                                                                                                                                           |
| Quelle                 | This antibody was purified from rat ascites fluid using protein G agarose. This hybridoma (clone TM71) was established by fusion of mouse myeloma cell SP2/0-Ag14 with Jcl:Wistar rats medial iliac lymph node immunized with the KLH conjugated phospho-pept |
| Target-Kategorie       | Vimentin                                                                                                                                                                                                                                                      |
| Application Verdünnung | WB: 1 µg/mL (chemiluminescence detection system). ICC: 1 µg/mL                                                                                                                                                                                                |
