| Spezies Reaktivität      | Human                                                                                                                                                                                                                                  |
| Immunogen                | Recombinant protein (or fragment). This information is considered to be commercially sensitive.                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                           |
| Produktbeschreibung      | This gene encodes a class IV histone deacetylase. The encoded protein is localized to the nucleus and may be involved in regulating the expression of interleukin 10. Alternative splicing results in multiple transcript variants.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                             |
| Molekulargewicht         | 39kDa                                                                                                                                                                                                                                  |
