## Product Datasheet

### **BMI1 (Oncogene and Stem Cell Marker)(BMI1/2690), CF405S conjugate, 0.1mg/mL, Clone: [BMI1/2690], Mouse, Monoclonal BOT-BNC042690-500**

|                          |                                                                                                                                                                                                                                                               |

| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa 142-326) of human BMI1 protein (exact sequence is proprietary)                                                                                                                                                                |
| Konjugation              | CF405S                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | The B cell-specific moloney murine leukemia virus integration site 1 (Bmi-1) is a transcriptional receptor of the polycomb gene family involved in several cellular processes including cell-cycle regulation, apoptosis, and maintenance of adult and neo... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.1 mg/mL                                                                                                                                                                                                                                                     |

|                  |                            |
|------------------|----------------------------|
| Klon-Bezeichnung | [BMI1/2690]                |
| Molekulargewicht | ~41 kDa                    |
| UniProt          | <a href="#">P35226</a>     |
| Puffer           | PBS, 0.1% BSA, 0.05% azide |
