## Product Datasheet

### **Uroplakin 1A (Urothelial Differentiation Marker)(UPK1A/2922), CF405S conjugate, 0.1mg/mL, Clone: [UPK1A/2922], Mouse, Monoclonal BOT-BNC042922-500**

|                          |                                                                                                                                                                                                                                                               |

| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa 114-173) of human Uroplakin 1A (UPK1A) protein (exact sequence is proprietary)                                                                                                                                                |
| Konjugation              | CF405S                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | The protein encoded by this gene is a member of the transmembrane 4 superfamily, also known as the tetraspanin family. Most of these members are cell-surface proteins that are characterized by the presence of four hydrophobic domains. The proteins me... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |

|                  |                            |
|------------------|----------------------------|
| Konzentration    | 0.1 mg/mL                  |
| Klon-Bezeichnung | [UPK1A/2922]               |
| Molekulargewicht | 29 kDa                     |
| UniProt          | <a href="#">O00322</a>     |
| Puffer           | PBS, 0.1% BSA, 0.05% azide |
| Quelle           | Animal                     |
