| Immunogen                | Recombinant human TYRP1 protein                                                                                                                                                                                                                               |
| Konjugation              | CF568                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Reacts with a 75 kDa melanocyte-specific gene product, identified as Tyrosinase-related protein-1 (TRP-1). It is involved in melanin synthesis. TRP1 is present on the melanosomal membranes of melanoma, normal melanocytes and nevi. Recent evidence sug... |
