| Immunogen                | Recombinant full-length human KRT7 protein                                                                                                                                                                                                                    |
| Produktbeschreibung      | This antibody recognizes an intermediate filament protein (IFP) of 55 kDa, which is identified as cytokeratin 7. This MAb is highly specific to cytokeratin 7 and shows no cross-reaction with other IFPs. Cytokeratin 7 is a basic cytokeratin, which is ... |
