| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant human wild type p53 protein expressed in E. coli.                                                                                                                                                                                                 |
| Produktbeschreibung      | Recognizes a 53 kDa protein, which is identified as p53 suppressor gene product. It reacts with the mutant as well as the wild form of p53. Its epitope maps within the N-terminus (aa 20-25) of p53. Monoclonal antibody PAb1801 does not block the bindi... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [DO-1]                                                                                                                                                                                                                                                        |
| Molekulargewicht         | 53 kDa                                                                                                                                                                                                                                                        |
