| Kategorie                | Antikörper                                                                                                                                                                                                                                                   |
| Applikation              | ELISA, IF, IHC, WB                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                            |
| Immunogen                | The antiserum was produced against synthesized peptide derived from human PIGX. AA range:183-232                                                                                                                                                             |
| Produktbeschreibung      | This gene encodes a type I transmembrane protein in the endoplasmic reticulum (ER). The protein is an essential component of glycosylphosphatidylinositol-mannosyltransferase I, which transfers the first of the four mannoses in the GPI-anchor precurs... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q8TBF5</a>                                                                                                                                                                                                                                       |
| Quelle                   | Polyclonal, Rabbit IgG                                                                                                                                                                                                                                       |
| Reinheit                 | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                        |

|                        |                                                                         |
|------------------------|-------------------------------------------------------------------------|
| Formulierung           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. |
| Application Verdünnung | WB 1:500 - 1:2000. IHC 1:100 - 1:300. ELISA: 1:40000.. IF 1:50-200      |
