| Immunogen                | Synthesized peptide derived from human NPC1 AA range: 1073-1123                                                                                                                                                                                               |
| Produktbeschreibung      | This gene encodes a large protein that resides in the limiting membrane of endosomes and lysosomes and mediates intracellular cholesterol trafficking via binding of cholesterol to its N-terminal domain. It is predicted to have a cytoplasmic C-terminu... |
