| Produktbeschreibung      | The M3K13 Colorimetric Cell-Based ELISA is a convenient, lysate-free, high throughput and sensitive assay kit that can detect M3K13 protein expression profile in cells. The kit can be used for measuring the relative amounts of M3K13 in cultured cells... |
| Detektionsbereich        | At least 5000 cells/well                                                                                                                                                                                                                                      |
