| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | ELISA, IF, WB                                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                              |
| Immunogen                | The antiserum was produced against synthesized peptide derived from human GPRC6A. AA range:471-520                                                                                                                                                             |
| Produktbeschreibung      | Members of family C of the G protein-coupled receptor (GPCR) superfamily, such as GPRC6A, are characterized by an evolutionarily conserved amino acid-sensing motif linked to an intramembraneous 7-transmembrane loop region. Several members of GPCR fami... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                     |
| UniProt                  | <a href="#">Q5T6X5</a>                                                                                                                                                                                                                                         |
| Quelle                   | Polyclonal, Rabbit IgG                                                                                                                                                                                                                                         |
| Reinheit                 | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                          |

|                        |                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------|
| Formulierung           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                    |
| Application Verdünnung | WB 1:500 - 1:2000. IF 1:200 - 1:1000. ELISA: 1:5000. Not yet tested in other applications. |
