| Applikation              | ELISA, IF, IHC                                                                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Synthesized peptide derived from human Tyrosinase AA range: 250-350                                                                                                                                                                                           |
| Produktbeschreibung      | tyrosinase(TYR) Homo sapiens The enzyme encoded by this gene catalyzes the first 2 steps, and at least 1 subsequent step, in the conversion of tyrosine to melanin. The enzyme has both tyrosine hydroxylase and dopa oxidase catalytic activities, and re... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P14679</a>                                                                                                                                                                                                                                        |
| Quelle                   | Mouse, Monoclonal IgG1, kappa                                                                                                                                                                                                                                 |
| Reinheit                 | The antibody was affinity-purified from ascites by affinity-chromatography using specific immunogen.                                                                                                                                                          |

|                        |                                                |
|------------------------|------------------------------------------------|
| Formulierung           | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%BSA |
| Application Verdünnung | IHC 1:200-400. IF 1:50-200. ELISA 1:500-5000   |
