| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment corresponding to human BRAF V600E mutant protein                                                                                                                                                                                         |
| Produktbeschreibung      | The BRAF gene encodes a protein that is part of the RAS-RAF-MEK-ERK signaling pathway, which regulates cell division and proliferation. The V600E mutation in the BRAF gene leads to the production of a constitutively active BRAF protein, resulting in ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [BRAF-V600E/13276R]                                                                                                                                                                                                                                           |
| Molekulargewicht         | 35kDa (predicted)                                                                                                                                                                                                                                             |

|              |                                                                                                                                                            |
