## Product Datasheet

### Transforming Growth Factor Beta (TGF-beta), Clone: [2E+6], Mouse, Monoclonal ANO-MO-C40009E

|                          |                                                                                  |
|--------------------------|----------------------------------------------------------------------------------|
| Artikelname              | Transforming Growth Factor Beta (TGF-beta), Clone: [2E+6], Mouse, Monoclonal     |
| Artikelnummer            | ANO-MO-C40009E                                                                   |
| Hersteller Artikelnummer | MO-C40009E                                                                       |
| Alternativnummer         | ANO-MO-C40009E-0.5MG, ANO-MO-C40009E-0.1MG                                       |
| Hersteller               | Anogen-Yes Biotech Laboratories                                                  |
| Wirt                     | Mouse                                                                            |
| Kategorie                | Antikörper                                                                       |
| Applikation              | EIA, WB                                                                          |
| Spezies Reaktivität      | Human                                                                            |
| Immunogen                | TGF-beta from human platelets                                                    |
| Produktbeschreibung      | Mouse monoclonal antibody to human Transforming Growth Factor beta (TGF-beta)... |
| Klonalität               | Monoclonal                                                                       |
| Klon-Bezeichnung         | [2E+6]                                                                           |
| Isotyp                   | IgG1, k                                                                          |
| Reinheit                 | Protein G affinity purified                                                      |
| Formulierung             | Aff. pur.                                                                        |

|                        |                                                                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Lagerung               | Store at -20°C                                                                                                                                                              |
| Target-Kategorie       | Human TGF-beta                                                                                                                                                              |
| Application Verdünnung | Double distilled water is recommended to adjust the final concentration to 1.00mg/mL.                                                                                       |
| Anwendungsbeschreibung | ELISA: The antibody reacts with TGF- Beta . Western Blotting: This antibody, when used at concentration of 1-10ng/mL, will allow visualization of 100ng/lane of TGF- Beta . |
