| Artikelname              | Granulocyte-Colony Stimulating Factor Receptor (G-CSFR), Clone: [S-1268], Mouse, Monoclonal   |
| Artikelnummer            | ANO-MO-C40045B                                                                                |
| Hersteller Artikelnummer | MO-C40045B                                                                                    |
| Alternativnummer         | ANO-MO-C40045B-0.5MG, ANO-MO-C40045B-0.1MG                                                    |
| Hersteller               | Anogen-Yes Biotech Laboratories                                                               |
| Wirt                     | Mouse                                                                                         |
| Kategorie                | Antikörper                                                                                    |
| Applikation              | WB                                                                                            |
| Spezies Reaktivität      | Human                                                                                         |
| Immunogen                | Purified recombinant MBP-GCSFR fusion protein                                                 |
| Produktbeschreibung      | Mouse monoclonal antibody to human granulocyte colony stimulating factor receptor (G-CSFR)... |
| Klonalität               | Monoclonal                                                                                    |
| Klon-Bezeichnung         | [S-1268]                                                                                      |
| Isotyp                   | IgG1,k                                                                                        |
| Reinheit                 | Protein G affinity purified                                                                   |
| Formulierung             | Aff. pur.                                                                                     |

|                        |                                                                                                                                                            |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Lagerung               | Store at -20°C                                                                                                                                             |
| Target-Kategorie       | Human G-CSFR                                                                                                                                               |
| Application Verdünnung | Double distilled water is recommended to adjust the final concentration to 1.00mg/mL.                                                                      |
| Anwendungsbeschreibung | Western Blot: The antibody recognizes denatured G-CSFR in Western blot following SDS-PAGE. Suggest use 200µg of cell lysate or immunoprecipitated protein. |
