| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Rat                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | Rat PRKACB/cAMP-Dependent Protein Kinase Catalytic Subunit beta ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of rat PRKACB/cAMP-Dependent Protein Kinase Catalytic Subunit beta... |
| Detektionsbereich        | 0.313-20 ng/ml                                                                                                                                                                                                                                                |
| Sensitivitaet            | 0.188 ng/ml                                                                                                                                                                                                                                                   |
| Proben                   | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                                                               |
| Target-Kategorie         | PRKACB/cAMP-Dependent Protein Kinase Catalytic Subunit beta                                                                                                                                                                                                   |
