| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Control, SDS-PAGE, WB                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Prokaryotic Mouse Calcium/Calmodulin Dependent Protein Kinase II Alpha is a purified Prokaryotic Protein. Purity: >90% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Mouse (Mus musculus). Target Name: Calcium... |
| Molekulargewicht         | 58kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">12322</a>                                                                                                                                                                                                                                         |

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Puffer            | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300. |
| Expression System | Prokaryotic expression                                                  |
| Reinheit          | >90% by SDS-PAGE                                                        |
| Formulierung      | Freeze-dried powder                                                     |
| Target-Kategorie  | Calcium/Calmodulin Dependent Protein Kinase II Alpha                    |
