| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human SOD3. Standards or samples are added to the micro ELISA plate wells and combined with the specific ant... |
| Detektionsbereich        | 125-8000pg/mL                                                                                                                                                                                                                                                 |
| Sensitivitaet            | 51pg/mL                                                                                                                                                                                                                                                       |
| Proben                   | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target-Kategorie         | SOD3                                                                                                                                                                                                                                                          |
