| Expression System        | E.coli                                                                                                                                                                                                                                   |
| Reinheit                 | > 95 % as determined by reducing SDS-PAGE.                                                                                                                                                                                               |
| Formulierung             | Lyophilized from sterile 50 mM Tris, 500 mM NaCl, pH 7.8. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | His630-Gln739                                                                                                                                                                                                                            |
