| Expression System        | E.coli                                                                                                                                                                                                                                 |
| Reinheit                 | > 95 % as determined by reducing SDS-PAGE.                                                                                                                                                                                             |
| Formulierung             | Lyophilized from sterile 50 mM PB, 500 mM NaCl, pH 7.0. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | Met1-Ala419(T205I)                                                                                                                                                                                                                     |
