## Product Datasheet

### InVivoMAb anti-mouse TREM-2, Clone: [178], Rat, Monoclonal BXC-BE0447-INDUSTRIAL

|                          |                                                                                                  |
|--------------------------|--------------------------------------------------------------------------------------------------|
| Artikelname              | InVivoMAb anti-mouse TREM-2, Clone: [178], Rat, Monoclonal                                       |
| Artikelnummer            | BXC-BE0447-INDUSTRIAL                                                                            |
| Hersteller Artikelnummer | BE0447                                                                                           |
| Alternativnummer         | BXC-BE0447-1MG,BXC-BE0447-5MG,BXC-BE0447-25MG,BXC-BE0447-50MG,BXC-BE0447-100MG                   |
| Hersteller               | Bio X Cell                                                                                       |
| Wirt                     | Rat                                                                                              |
| Kategorie                | Antikörper                                                                                       |
| Spezies Reaktivität      | Mouse                                                                                            |
| Immunogen                | Recombinant protein containing the ectodomain of TREM-2 fused to the constant domain of human Ig |
| Klonalität               | Monoclonal                                                                                       |
| Konzentration            | Lot specific,typically between 4-11 mg/ml                                                        |
| Klon-Bezeichnung         | [178]                                                                                            |
| Molekulargewicht         | 150 kDa                                                                                          |
| Pubmed                   | <a href=https://pubmed.ncbi.nlm.nih.gov/16951310 target=_blank rel=nofollow>16951310             |
| Reinheit                 | 95% , Determined by SDS-PAGE                                                                     |
| Formel                   | PBS, pH 7.0, Contains no stabilizers or preservatives                                            |

|                        |                                                                                                |
|------------------------|------------------------------------------------------------------------------------------------|
| Target-Kategorie       | TREM-2                                                                                         |
| Anwendungsbeschreibung | Flow cytometry , ELISA , in vitro TREM-2 blockade , in vivo TREM-2 blockade (see description)* |
