| Hersteller               | MedchemExpress                                                                                                                                                                                                                                                |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | The GFRAL protein is a brainstem-restricted receptor for GDF15 that regulates food intake, energy expenditure, and body weight in response to metabolic and toxin-induced stress. GFRAL binds to its ligand GDF15, interacts with RET, and activates the M... |
| Molekulargewicht         | Approximately 43-60 kDa, based on SDS-PAGE under reducing conditions, due to the glycosylation.                                                                                                                                                               |
| Reinheit                 | 95                                                                                                                                                                                                                                                            |
| Formel                   | 389400(Gene_ID)Q6UXV0 (S19-E351)(Accession)                                                                                                                                                                                                                   |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
