| Hersteller               | MedchemExpress                                                                                                                                                                                                                                                |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | The CLEC5A/MDL-1 protein positively regulates osteoclastogenesis and regulates inflammatory responses. It acts as a critical macrophage receptor for dengue virus serotypes 1-4, triggering signaling through TYROBP phosphorylation. This interaction sti... |
| Molekulargewicht         | Approximately 60-66 kDa, based on SDS-PAGE under reducing conditions, due to the glycosylation.                                                                                                                                                               |
| Reinheit                 | 95                                                                                                                                                                                                                                                            |
| Formel                   | 23601(Gene_ID)Q9NY25-1 (P28-K188)(Accession)                                                                                                                                                                                                                  |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
