| Applikation              | ICC, IHC, IP, WB                                                                                                                                                                                   |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                  |
| Konjugation              | Unconjugated                                                                                                                                                                                       |
| Produktbeschreibung      | Seems to be required for maximal rate of protein biosynthesis. Enhances ribosome dissociation into subunits and stabilizes the binding of the initiator Met-tRNA(I) to 40 S ribosomal subunits.... |
| Klonalität               | Monoclonal                                                                                                                                                                                         |
| Molekulargewicht         | Calculated MW: 16 kDa, Observed MW: 16 kDa                                                                                                                                                         |
| NCBI                     | <a href="#">1964</a>                                                                                                                                                                               |
| UniProt                  | <a href="#">P47813</a>                                                                                                                                                                             |
| Puffer                   | Purified antibody in TBS with 0.05% sodium azide,0.05%BSA and 50% glycerol.                                                                                                                        |

|                        |                                                            |
