| Hersteller               | Echelon Biosciences                                                                                                                                                                                                                                          |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                            |
| Produktbeschreibung      | The Acid Sphingomyelinase Assay Kit is an enzyme assay that measures acid sphingomyelinase activity in biological samples through the direct hydrolysis of a fluorogenic substrate. Assay sensitivity: 3.125 pmol/hour Sample Type: tissue homogenates, c... |
| Anwendungsbeschreibung   | Categories: Bioassays & Kits. Related: Activity, Enzyme. Ship 1 : Shipping Temp. Ship 2: Dry ice or gel ice depending on destination                                                                                                                         |
